

RITESH VILAS DHATRAK

Mobile Application Developer | Android Developer | Flutter Developer | UI/UX Designer

Phone: [9730023633](tel:9730023633) | Email: riteshdhatrak466@gmail.com | LinkedIn: [ritesh-dhatrak74](https://www.linkedin.com/in/ritesh-dhatrak74) | GitHub: [ritesh15666](https://github.com/ritesh15666) | Portfolio: <https://ritesh-portfolio-847.netlify.app/>

PROFESSIONAL SUMMARY

Motivated Mobile Application Developer and UI/UX Designer with hands-on experience building Android applications using Java, XML, and Android Studio, along with cross-platform apps in Flutter and Dart. Skilled at designing clean, intuitive interfaces in Figma and Canva and translating them into functional, user-friendly mobile experiences. Strong problem-solving ability with a track record of independently designing and developing complete applications across education, productivity, and utility domains. Eager to contribute to innovative, user-centric mobile products.

TECHNICAL SKILLS

Mobile Development: Android Development, Java, XML, Android Studio, Flutter, Dart

UI/UX Design: Figma, Canva, UI Design, UX Design, Wireframing, User Interface Design, User Experience Enhancement

Web Technologies: HTML, CSS

Core Competencies: Application Development, Responsive Design, Mobile UI, Software Development, Problem Solving

PROJECTS

Swarajya Explorer | *Android (Java, XML)*

Interactive historical learning application showcasing the forts and history associated with Chhatrapati Shivaji Maharaj.

- Built 360-degree fort exploration modules paired with animated historical content and war/history videos for immersive learning.
- Designed interactive quizzes and educational content to create an engaging, child-focused learning experience.

Resume Builder & Analyzer | *Mobile Application*

Application enabling users to create professional resumes and receive analysis to improve them.

- Designed a user-friendly interface for guided resume creation and editing.
- Implemented resume analysis functionality to help users identify and improve resume quality.

Nashik City Bus - UI/UX Enhancement | *UI/UX Design*

Redesign project focused on improving the usability of the Nashik city bus application.

- Redesigned key screens to improve navigation flow and overall usability.
- Enhanced the visual interface for a cleaner, more intuitive user experience.

IRCTC Railway Booking App | *UI/UX Design*

Railway booking application concept inspired by railway reservation systems.

- Designed a search and booking interface with a smooth, user-friendly booking workflow.
- Focused on delivering a clear, mobile-first booking experience.

Stress Detection Using Handwriting, Face & Voice | *Multimodal Application Concept*

Multimodal project exploring stress-pattern detection using handwriting, facial information, and voice input.

- Explored combining multiple input modalities - handwriting, face, and voice - into a single detection concept.

Additional Projects

- JARVIS - Personal Assistant: mini project exploring an automation/assistance concept with user interaction.
- Food Delivery App: mobile UI/UX for browsing, restaurant/food selection, and an ordering workflow.
- Student Attendance System: application for managing student records and attendance workflow.

EDUCATION

B.Tech in Computer Engineering | 2026 - Currently Pursuing

Diploma in Cloud Computing & Big Data | 2023 - 2026 | Percentage: 79.47%

ADDITIONAL INFORMATION

Interested in building innovative, user-friendly mobile applications and continuously strengthening skills across Android, Flutter, and UI/UX design.
