PROFESSIONAL SUMMARY

Motivated Computer Engineering student and multidisciplinary developer with hands-on experience in AI/ML concepts, native Android development, UI/UX design, and frontend web development. Skilled in building user-focused applications using Java, XML, Android Studio, Python, HTML, CSS, JavaScript, Figma, and Canva. Interested in creating accessible, intelligent, and visually polished digital products that solve real-world problems. Seeking an internship or fresher opportunity in AI/ML, Android development, UI/UX, or frontend development.

TECHNICAL SKILLS

- **AI/ML:** Python, TensorFlow/Keras, OpenCV, Computer Vision, CNN, Image Classification, Object Detection, FastAPI
- **Android Development:** Java, XML, Android Studio, Android SDK, REST API Integration, Firebase, Jetpack Compose (basics)
- **UI/UX Design:** Figma, Canva, Wireframing, Prototyping, User Flows, Responsive Design, Mobile UI Design, Usability Design
- **Frontend Development:** HTML, CSS, JavaScript, Responsive Web Design, DOM Manipulation, GitHub
- **Tools & Core Skills:** Git, GitHub, Firebase, Supabase (basics), Problem Solving, UI Implementation, API Integration

PROJECTS

VisionAssist AI | *AI/ML, Android, Computer Vision*

- Developed an AI-powered object detection concept to assist visually impaired users in identifying real-world objects through camera input.
- Designed the Android application flow to deliver accessible, voice-based and on-screen feedback, prioritizing real-time detection and usability.

CareerCraft AI | *Android, AI*

- Built an AI-powered career guidance and resume support application concept for students and freshers.
- Designed resume building, skill analysis, and career recommendation features with intuitive mobile screens and structured user flows.

Swarajya Explorer | *Android, Java, XML*

- Developed an educational Android application highlighting the forts, history, and legacy of Chhatrapati Shivaji Maharaj.
- Designed interactive fort exploration, quiz modules, and engaging, child-friendly learning screens with structured navigation.

Nashik City Bus Redesign | *UI/UX Design, Figma*

- Redesigned the city bus application experience to improve navigation, route discovery, and overall usability.
- Created user-friendly wireframes and a cleaner mobile interface to simplify journey planning for daily commuters.

IRCTC Railway Booking App | *UI/UX Design, Figma*

- Designed a mobile-first railway ticket booking concept covering search, train selection, and passenger details flow.
- Improved usability through organized information hierarchy and intuitive interaction design.

DevPortfolio | *Frontend Development, HTML, CSS, JavaScript*

- Designed and developed a responsive personal portfolio website showcasing skills, projects, resume, and contact details.
- Implemented interactive sections, responsive layouts, and animations, ensuring smooth performance across devices.

Additional project work: Stress Detection Using Handwriting, Face & Voice (AI/ML multimodal concept); JARVIS Personal Assistant (automation concept); Food Delivery App (UI/UX); Student Attendance System (application concept).

EDUCATION

B.Tech in Computer Engineering | Currently Pursuing

Diploma in Cloud Computing & Big Data | 2023 - 2026 | 79.47%

ADDITIONAL INFORMATION

- Strong interest in AI-powered mobile applications, accessible technology, Android development, UI/UX design, and frontend development.
- Available for internships, fresher roles, and collaborative project opportunities.
